September 11, 2020

We are happy to report we have completed our Universal Testing for COVID-19 for our residents and staff, as per State regulations.

VISITATION of your loved one is welcomed now at Whitehall Manor. All Personal Care and Secure unit visits can be arranged through appointments with our Activities Department, as follows.

Call Activities, at 484-294-0366 to arrange visitation of Personal Care residents and Secured unit residents.

Visits are currently held under a tent to the side of the front entrance, weather permitting, but will be held inside our Lower Level area, in case of inclement weather. All visits, including tent and inside, requires handwashing, masks and maintaining 6' social distancing.

Currently, **room visitation** is only for residents who are:

1. On hospice
2. Unable to go to the tent
3. At "End of Life"

Room visitors will be screened for temperature and any signs or symptoms of COVID-19 and a **negative** COVID-19 result must be produced for each visitor. MASKS AND HANDWASHING IN OUR SINK will be observed also before being escorted to the room by one of our staff members. A staff member will also be escorting you to the lobby area upon completion of your visit.

If you are taking a resident out to your home or restaurant, all precautions such as wearing a mask, washing hands and social distancing, should be practiced. *Please remember to sign the resident out and back in to the facility when returning.*

If you have any questions or concerns, please *text* the following Administrators and they will be happy to answer your questions.

Nimita (Nemo) Atiyeh – 610-972-8888

Soulima Wahbeh-Younes – 484-597-1420
